a) The vehicle population growth rate from Feb 2018 has been set at 0% per annum for Cat A, B and D, while that of Cat C will remain at 0.25% per annum. This will remain in place until Jan 2028.
b) LTA has identified the vehicles in the vehicle registry which will be redistributed. When the identified vehicles are deregistered, their quota will not be returned to the pool for bidding.
c) From Feb 2023, the number of COEs available for bidding in each quarter is the rolling average of deregistrations in the previous four quarters.
d) From May 2017, Cat E receives 10% of the deregistrations from Cat A, B and C.
e) From May 2017, Cat D deregistrations no longer contribute to Cat E.
f) From 6 Aug 2012, COEs for new taxi registrations are drawn from Cat E and are deducted from the total number of Cat E COEs, net of deregistrations in the same period. Adjustments are made every six months. Over the six-month period from 1 Jan 2025 to 31 Jun 2025, 280 taxis were registered and 1,051 taxis were deregistered. Therefore, a net addition of (1,051 - 280 = 771) is made to the Cat E quota over the subsequent two quarters from Aug 2025 to Oct 2025 and Nov 2025 to Jan 2026.
g) From May 2023, the deductions for ETS will be adjusted based on the rolling average of ETS registrations in the previous four quarters.
h) Refers to Temporary COEs (TCOEs) that were successfully secured by bidders but were not utilised during their validity period, which expired between Jul 2025 to Sep 2025. Expired Cat E TCOEs successfully secured by bidders but not utilised during their validity period, will be redistributed to Cat A, B and C in proportion to their respective contributions to Cat E.
i) From 2nd bidding exercise of May 2023 (inclusive), guaranteed deregistrations of COEs which are due to expire in the next projected supply peak will be brought forward for redistribution. From Feb 2025, LTA will progressively inject up to about 20,000 additional COEs across vehicle categories over the next few years.

Notes:

(a) The vehicle growth rate from Feb 2018 has been set at 0% per annum for Cat A, B and D, while that of Cat C will remain at 0.25% per annum. This will remain in place until Jan 2025.
(b) LTA has identified the vehicles in the vehicle registry which will be redistributed. When the identified vehicles are deregistered, their quota will not be returned to the pool for bidding.
(c) From Feb 2023, the number of COEs available for bidding in each quarter is the rolling average of deregistrations in the previous four quarters.
(d) From May 2017, Cat E receives 10% of the deregistrations from Cat A, B and C.
(e) From May 2017, Cat D deregistrations no longer contribute to Cat E.
(f) From 6 Aug 2012, COEs for new taxi registrations are drawn from Cat E and are deducted from the total number of Cat E COEs, net of deregistrations in the same period. Adjustments are made every six months. Over the six-month period from 1 Jan 2024 to 30 Jun 2024, 725 taxis were registered and 909 taxis were deregistered. Therefore, a net addition of (909 – 725 = 184) is made to the Cat E quota over the subsequent two quarters from Aug 2024 to Oct 2024 and Nov 2024 to Jan 2025.
(g) From May 2023, the deductions for ETS will be adjusted based on the rolling average of ETS registrations in the previous four quarters.
(h) Refers to Temporary COEs (TCOEs) that were successfully secured by bidders but were not utilised during their validity period, which expired between Apr 2024 to Jun 2024. Cat D TCOEs issued from 1st bidding exercise of May 2023 (inclusive) will be returned for bidding earlier than the current practice of the next quarter. Expired Cat E TCOEs successfully secured by bidders but not utilised during their validity period, will be redistributed to Cat A, B and C in proportion to their respective contributions to Cat E.
(i) From 2nd bidding exercise of May 2023 (inclusive), guaranteed deregistrations of COEs which are due to expire in the next projected supply peak will be brought forward for redistribution.

Notes:

(a) The vehicle growth rate from Feb 2018 has been set at 0% per annum for Cat A, B and D, while that of Cat C will remain at 0.25% per annum. This will remain in place until Jan 2025.

(b) Taxis were moved from Cat A to Cat E from 6 Aug 2012. With the car population growth rate set at zero, the growth rate of Cat E COEs for the taxi population is also set at zero.

(c) From Feb 2023, the number of COEs available for bidding in each quarter is the rolling average of deregistrations in the previous four quarters.

(d) From May 2017, Cat E receives 10% of the deregistrations from Cat A, B and C.

(e) From May 2017, Cat D deregistrations no longer contribute to Cat E.

(f) COEs for new taxi registrations are drawn from Cat E and are deducted from the total number of Cat E COEs, net of deregistrations in the same period. Adjustments are made every six months. Over the six-month period from 1 Jul 2022 to 31 Dec 2022, 251 taxis were registered and 526 taxis were deregistered. Therefore, a net addition of (526 – 251 = 275) is made to the Cat E quota over the subsequent two quarters from Feb 2023 to Apr 2023 and May 2023 to Jul 2023.

(g) From May 2023, the deduction for ETS registrations will be the rolling average of ETS registrations in the previous four quarters.

(h) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Jan 2023 to Mar 2023.

(i) Cat D COEs issued from 1st bidding exercise of May 2023 (inclusive), will be returned for bidding earlier than the current practice of the next quarter.

Note:

(a) The vehicle growth rate from Feb 2018 has been set at 0% per annum for Cat A, B and D, while that of Cat C will remain at 0.25% per annum. This will remain in place until Jan 2025

(b) Taxis were moved from Cat A to Cat E from 6 Aug 2012. With the car population growth rate set at zero, the growth rate of Cat E COEs for the taxi population is also set at zero.

(c) From May 2017, Cat E receives 10% of the deregistrations from Cat A, B and C.

(d) From May 2017, Cat D deregistrations no longer contribute to Cat E.

(e) COEs for new taxi registrations are drawn from Cat E and are deducted from the total number of Cat E COEs, net of deregistrations in the same period. Adjustments are made every six months. Over the six-month period from 1 Jan 2021 to 30 Jun 2021, 647 taxis were registered and 789 taxis were deregistered. Therefore, a net addition of (789 – 647 =) 142 is made to the Cat E quota over the subsequent two quarters from Aug 2021 to Oct 2021 and Nov 2021 to Jan 2022.

(f) 1,469 vehicles were registered under the Early Turnover Scheme from Jul to Sep 2021. 90% of the COEs issued under this scheme, i.e. 1,322 COEs, are deducted from the Cat C quota, and 10%, i.e. 147 COEs, from Cat E.

(g) Refers to COEs that were successfully secured by bidders but were not utilised during their respective validity periods, which expired between Jul to Sep 2021.

Over the six-month period from 1 Jan 2020 to 31 Jun 2020, 452 taxis were registered and 2,717 taxis were deregistered. Therefore, a net addition of (2,717 – 452 =) 2,265 is being made to the Cat E quota over the subsequent two quarters from Aug 2020 to Oct 2020 and Nov 2020 to Jan 2021.

(f) 370 vehicles were registered under the Early Turnover Scheme from Apr to Jun 2020. 90% of the COEs issued under this scheme, i.e. 333 COEs, are deducted from the Cat C quota, and 10%, i.e. 37 COEs, from Cat E.

(g) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Apr to Jun 2020.

(h) Bidding exercises in Apr, May and Jun 2020 were suspended due to the closure of motor vehicle dealerships and showrooms. 19,490 COEs from the suspended bidding exercises will be redistributed over 24 bidding exercises from Jul 2020 onwards. There will be an additional 4,332 COEs from Aug 2020 to Sep 2020 and 1,441 COEs for Oct 2020. A total of 7,935 out of the 19,490 COEs have been redistributed for bidding (including upcoming bidding exercises in Aug, Sep and Oct 2020).

Monthly Quota for Feb 2020 to Apr 2020 Bidding Exercises		1,945	1,966	629	1,155	655	6,350

Note:

(a) The vehicle growth rate from Feb 2018 has been set at 0% per annum for Cat A, B and D, while that of Cat C will remain at 0.25% per annum until further review in 2020.

(b) Taxis were moved from Cat A to Cat E from 6 Aug 2012. With the car population growth rate set at zero, the growth rate of Cat E COEs for the taxi population is also set at zero.

(c) From May 2017, Cat E receives 10% of the deregistrations from Cat A, B and C.

(d) From May 2017, Cat D deregistrations no longer contribute to Cat E.

(e) COEs for new taxi registrations are drawn from Cat E and are deducted from the total number of Cat E COEs, net of deregistrations in the same period. Adjustments are made every six months. Over the six-month period from 1 Jul 2019 to 31 Dec 2019, 2,073 taxis were registered and 3,009 taxis were deregistered. Therefore, a net addition of (3,009 – 2,073 =) 936 is being made to the Cat E quota over the subsequent two quarters from Feb 2020 to Apr 2020 and May 2020 to Jul 2020.

(f) 737 vehicles were registered under the Early Turnover Scheme from Jan to Mar 2020. 90% of the COEs issued under this scheme, i.e. 664 COEs, are deducted from the Cat C quota, and 10%, i.e. 73 COEs, from Cat E.

(g) Refers to temporary COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Jan to Mar 2020.

(h) 19,490 COEs from the suspended bidding exercises from Apr to Jun 2020 will be returned over the next 12 months from Jul 2020 onwards. There will be an additional 6,494 COEs from Jul 2020 to Sep 2020, of which 2,162 COEs have been added to the quota for bidding exercises in Jul 2020.

Monthly Quota for Aug 2018 to Oct 2018 Bidding Exercises		3,328	2,529	674	1,639	1,055	9,225

Note:

(a) The vehicle growth rate from Feb 2018 onwards has been set at 0% per annum for Cat A, B and D, while that of Cat C will remain at 0.25% per annum until further review in 2020.

(b) Taxis were moved from Cat A to Cat E from 6 Aug 2012 onwards. With Cat A vehicle growth rate at 0% per annum, Cat E receives no COEs from the vehicle growth component for the taxi population of 23,140 taxis as at 31 December 2017.

(c) From May 2017, Cat E receives 10% of the de-registrations from Cat A, B and C.

(d) From May 2017, Cat D de-registrations no longer contribute to Cat E.

(e) COEs for new taxi registrations are drawn from Cat E and need to be deducted from the total number of cat E COEs, net of deregistrations in the same period. Adjustments are made every six months. Over the six-month period between 1 Jan 2018 and 30 Jun 2018, 37 taxis were registered and 2,013 taxis were deregistered. Therefore, a net adjustment of (2,013 – 37) = 1,976 will be made to the Cat E quota over the subsequent two quarters from Aug 2018 to Oct 2018 and Nov 2018 to Jan 2019.

(f) 1,552 vehicles were registered under the Early Turnover Scheme from Jul to Sep 2018. 90% of the COEs issued under this scheme, i.e. 1,397 COEs, are deducted from the Cat C quota, and 10%, i.e. 155 COEs, from Cat E.

(g) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Jul to Sep 2018.

Note:

(a) The vehicle growth rate from Feb 2015 onwards has been set at 0.25% per annum.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives 17 COEs from the vehicle growth component for the taxi population of 27,534 taxis as at 31 Dec 2016.

(c) From Feb 2015, Cat E receives 10% of the de-registrations in each category.

(d) From May 2017, Cat D de-registrations no longer contribute to Cat E.

(e) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jan 2017 and 30 Jun 2017, 833 taxis were registered and 2,668 taxis were deregistered. Therefore, a net adjustment of (2,668 – 833) = 1,835 will be made to the Cat E quota over the subsequent two quarters from Aug 2017 to Oct 2017 and Nov 2017 to Jan 2018.

Monthly Quota for Feb 2017 to Apr 2017 Bidding Exercises		4,104	2,714	322	692	963	8,795

Note:

(a) The vehicle growth rate from Feb 2015 onwards has been set at 0.25% per annum.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives 17 COEs from the vehicle growth component for the taxi population of 27,534 taxis as at 31 Dec 2016.

(c) From Feb 2015, Cat E receives 10% of the de-registrations in each category.

(d) From May 2017, Cat D de-registrations no longer contribute to Cat E.

(e) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jul 2016 and 31 Dec 2016, 1,760 taxis were registered and 2,419 taxis were deregistered. Therefore, a net adjustment of (2,419 – 1,760) = 659 will be made to the Cat E quota over the subsequent two quarters from Feb 2017 to Apr 2017 and May 2017 to Jul 2017.

(f) 2,813 vehicles were registered under the Early Turnover Scheme from Jan to Mar 2017. 90% of the COEs issued under this scheme, i.e. 2,532, are deducted from the Cat C quota, and 10% i.e. 281 COEs from Cat E.

(g) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Jan to Mar 2017.

Monthly Quota for May to Jul 2015 Bidding Exercises		2,853	1,856	736	653	539	6,637

Note:

(a) The vehicle growth rate from Feb 2015 onwards has been set at 0.25% per annum.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives 18 COEs from the vehicle growth component for the taxi population of 28,736 taxis as at 31 Dec 2014.

(c) From Feb 2015, Cat E receives 10% of the deregistrations in each category.

(d) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jan 2015 and 31 Jun 2014, 2,190 taxis were registered and 2,240 taxis were deregistered. Therefore, a net adjustment of (2,240 – 2,190) = 50 will be made to the Cat E quota over the subsequent two quarters from Aug to Oct 2015 and Nov 2015 to Jan 2016.

(e) 1,127 vehicles were registered under the Early Turnover Scheme from Apr to Jun 2015. 90% of the COEs issued under this scheme, i.e. 1,015, are deducted from the Cat C quota, and 10% i.e. 112 COEs from Cat E.

(f) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Apr 2015 and Jun 2015.

Monthly Quota for May to Jul 2015 Bidding Exercises		**2,853**	**1,856**	**736**	**653**	**539**	**6,637**
Monthly Quota for Feb to Apr 2015 Bidding Exercises		1,973	1,444	369	570	349	4,705

Note:

(a) The vehicle growth rate has been set at 0.25% per annum as of February 2015.

(b) When taxis were moved from Cat A to Cat E from 6 Aug 2012, 135 COEs representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013 or about 23 COEs per month, should have been deducted from Cat A and added to Cat E. However, they remained in the Cat A quota for Aug 2012 to Jan 2013. 67 COEs were deducted from Cat A and moved to Cat E in the Feb to Apr 2015 quota cycle, and the remaining 68 COEs are moved in this quota cycle.

(c) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives the vehicle growth component for the taxi population of 28,736 taxis as at 31 Dec 2014 (18 COEs). There is a further addition of 68 COEs, as explained in footnote (b).

(d) From Feb 2015, Cat E receives 10% of the deregistrations in each category.

(e) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jul 2014 and 31 Dec 2014, 2,197 taxis were registered and 1,326 taxis were deregistered. Therefore, a net adjustment of (1,326 – 2,197) = -871 will be made to the Cat E quota over the subsequent two quarters from Feb to Apr 2015 and May to Jul 2015. An adjustment of -435 was made to the Feb to Apr 2015 quota, with the remaining -436 to be made to the current quota.

(f) 1,097 vehicles were registered under the Early Turnover Scheme from Jan to Mar 2015, i.e. registered directly with a COE, without bidding. Thus, 1,097 Cat C COEs need to be deducted from the Cat C replacement quota. However, as 10% of this, or 109 COEs, had been moved to Cat E as part of the Cat C contribution to Cat E of 339 (at row B2), these 109 COEs should be returned from Cat E to Cat C as part of the ETS adjustments at row C2. Hence, only (1,097 – 109) = 988 quotas will be deducted from Cat C.

(g) Refer to COEs that were successfully secured by bidders but were not utilised during their validity period, i.e. expired between Jan and Mar 2015.

Note:

(a) The vehicle growth rate from Feb 2015 onwards has been set at 0.25% per annum.

(b) When taxis were moved from Cat A to Cat E from 6 Aug 2012, 135 COEs representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013, or about 23 COEs per month, should have been deducted from Cat A and added to Cat E. However, they had remained in the Cat A quota for Aug 2012 to Jan 2013. This adjustment will be made to the net increase allowed per quarter for Cat A from Feb to Jul 2015, i.e. 67 of the 135 COEs will be deducted from Cat A and moved to Cat E for the Feb to Apr 2015 quota cycle, and the remaining 68 COEs will be moved in the May to Jul 2015 quota cycle.

(c) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives the vehicle growth component for the taxi population of 28,736 taxis as at 31 Dec 2014. The adjustment of 67 COEs, for the vehicle growth component for the taxi population for Aug 2012 to Jan 2013 as explained in footnote (b), is also made to Cat E.

(d) Cat E receives 10% of the deregistrations in each category.

(e) Since new taxi registrations (i.e. not replacing deregistered taxis) are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jul 2014 and 31 Dec 2014, 2,197 taxis were registered and 1,326 taxis were deregistered. Therefore, a net adjustment of (1,326 – 2,197) = -871 will be made to the Cat E quota over the subsequent two quarters from Feb to Apr 2015 and May to Jul 2015.

(f) 1,978 vehicles were replaced under the Early Turnover Scheme (ETS) from Oct to Dec 2014, i.e. registered directly with a COE, without bidding. Thus, 1,978 Cat C COEs need to be deducted from the Cat C replacement quota. However, as 10% of this, or 197 COEs, had been moved to Cat E as part of the Cat C contribution to Cat E of 309 (at row B2), these 197 COEs should be returned from Cat E to Cat C as part of the ETS adjustments at row C2. Hence, only (1,978 – 197) = 1,781 quotas will be deducted from Cat C.

(g) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Oct 2014 and Dec 2014.

Monthly Quota for Aug 2014 to Oct 2014 Bidding Exercises		1,143	1,010	515	631	478	3,777

Note:

(a) The vehicle growth rate for Feb 2013 to Jan 2015 has been set at 0.5% per annum.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives the vehicle growth component for the taxi population of 27,695 taxis as at 31 Dec 2013.

(c) Cat E receives 15% of the deregistrations in each category.

(d) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jan 2014 and 30 Jun 2014, 1,995 taxis were registered and 1,825 taxis were deregistered. Therefore, a net adjustment of (1,825 – 1,995) / 2 = -85 will be made to the Cat E quota over each of the subsequent two quarters from Aug to Oct 2014 and Nov 2014 to Jan 2015.

(e) 2,057 vehicles were registered under the Early Turnover Scheme from Jul 2014 to Sep 2014, which needs to be deducted from the Cat C quota. However, 15% of this, or 308 COEs should be taken from Cat E as the calculation for the 15% contribution of Cat C to Cat E from these 2,057 vehicles was not accounted for in row B2. Hence, only 1,749 quotas will be deducted from Cat C.

(f) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Apr 2014 and Jun 2014.

(g) Refers to a total adjustment of -17,558 for over-projections in Quota Years 2008 and 2009, as well as expired COEs from 2009. An adjustment of -12,769 was made in the quota from Apr 2010 to Jul 2012. The adjustment was deferred for one year from Aug 2012 to Jul 2013. Since adjustments resumed in Aug 2013, a balance of -793 COEs remains as at end Oct 2014 to be adjusted in this quota period ending Jan 2015.There will not be any more adjustments after Jan 2015.

(h) When taxis were moved from Cat A to Cat E from 6 Aug 2012, 23 COEs per month, representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013, should have been deducted from Cat A and added to Cat E. However, they had remained in the Cat A quota for Aug 2012 to Jan 2013. This adjustment will be made at an appropriate time.

Note:

(a) The vehicle growth rate for Feb 2013 to Jan 2015 has been set at 0.5% per annum.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives the vehicle growth component for the taxi population of 27,695 taxis as at 31 Dec 2013.

(c) Cat E receives 15% of the deregistrations in each category.

(d) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jan 2014 and 30 Jun 2014, 1,995 taxis were registered and 1,825 taxis were deregistered. Therefore, a net adjustment of (1,825 – 1,995) / 2 = -85 will be made to the Cat E quota over each of the subsequent two quarters from Aug to Oct 2014 and Nov 2014 to Jan 2015.

(e) 912 vehicles were registered under the Early Turnover Scheme from Apr 2014 to Jun 2014, which needs to be deducted from the Cat C quota. However, 15% of this, or 136 COEs should be taken from Cat E as the calculation for the 15% contribution of Cat C to Cat E from these 912 vehicles was not accounted for in row B2. Hence, only 776 quotas will be deducted from Cat C.

(f) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period, which expired between Apr 2014 and Jun 2014.

(g) Refers to a total adjustment of -17,558 for over-projections in Quota Years 2008 and 2009, as well as expired COEs from 2009. An adjustment of -12,769 was made in the quota from Apr 2010 to Jul 2012. The adjustment was deferred for one year from Aug 2012 to Jul 2013. Since adjustments resumed in Aug 2013, a balance of -1,593 COEs remains as at end Jul 2014 to be adjusted in this and the upcoming quota period ending Jan 2015.

(h) When taxis were moved from Cat A to Cat E from 6 Aug 2012, 23 COEs per month, representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013, should have been deducted from Cat A and added to Cat E. However, they had remained in the Cat A quota for Aug 2012 to Jan 2013. This adjustment will be made at an appropriate time.

Note:

(a) The vehicle growth rate for Feb 2013 to Jan 2015 has been set at 0.5% per annum.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives the vehicle growth component for the taxi population of 27,695 taxis as at 31 Dec 2013.

(c) Cat E receives 15% of the de-registrations in each category.

(d) Since new taxi registrations are drawn from Cat E, they need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the net registrations are adjusted in the quota of the subsequent period. Over the six-month period between 1 Jul 2013 and 31 Dec 2013, 1,982 taxis were registered and 2,068 taxis were de-registered. Therefore, a net adjustment of (2,068 – 1,982) / 2 = +43 will be made to the Cat E quota over each of the subsequent two quarters from Feb 2014 to Apr 2014, and May 2014 to Jul 2014.

(e) 724 vehicles were registered under the Early Turnover Scheme from Jan 2014 to Mar 2014, which needs to be deducted from the Cat C quota. However, 15% of this, or 108 COEs, should be taken from Cat E as the calculation for the 15% contribution of Cat C to Cat E from these 724 vehicles was not accounted for in row B2. Hence, only 616 quotas will be deducted from Cat C.

(f) Refers to COEs that were successfully secured by bidders but not utilised during their validity period, which expired between Jan 2014 and Mar 2014.

(g) Refers to a total adjustment of -17,558 for over-projections in Quota Years 2008 and 2009, as well as expired COEs from 2009. An adjustment of -12,769 has been made in the quota from Apr 2010 to Jul 2012. The adjustment was deferred for one year from Aug 2012 to Jul 2013 and the remaining adjustment of -2,393 will be made by Jan 2015.

(h) When taxis were moved from Cat A to Cat E from 6 Aug 2012, 23 COEs per month, representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013, should have been deducted from Cat A and added to Cat E. However, they had remained in the Cat A quota for Aug 2012 to Jan 2013. This adjustment will be made at an appropriate time.

Monthly Quota for Aug 2013 to Jan 2014 Bidding Exercises		728	746	514	961	522	3,471

Note:

(a) The vehicle growth rate for the 3-year quota period from Feb 2012 to Jan 2015 has been set at 1.5% p.a. for Feb to Jul 2012, 1.0% p.a. for Aug 2012 to Jan 2013 and 0.5% for Feb 2013 to Jan 2015.

(b) As taxis were moved from Cat A to Cat E from 6 Aug 2012, Cat E receives the vehicle growth component for the taxi population of 27,695 taxis as at 31 Dec 2013.

(c) Cat E receives 15% of the de-registrations in each category. As announced in May 2012, the contribution rate to Cat E has been reduced to 15% from Feb 2013.

(d) Since taxis were moved to Cat E from 6 Aug 2012, new registrations thereafter would draw upon the allocation of Cat E COEs. These new registrations need to be deducted from the total number of Cat E COEs. As the net increase is only known at the end of the quota period, the new registrations are adjusted in the quota of the subsequent period. Between 1 Jul 2013 and 31 Dec 2013, 1,982 taxis were registered and 2,068 taxis were de-registered. Therefore, a net adjustment of (2,068 – 1,982) / 2 = +43 will be made to the Cat E quota over each of the subsequent two quarters from Feb to Apr 2014 and May to Jul 2014.

(e) A total of 321 vehicles were registered under the Early Turnover Scheme from Oct to Dec 2013, which requires 321 COEs to be drawn from Cat C. 48 COEs will also be drawn from Cat E and added back to Cat C to reverse the 15% contribution to Cat E from these 321 vehicles.

(f) Refers to COEs that were successfully secured by bidders but were not utilised during their validity period (between Jul and Dec 2013).

(g) Refers to a total adjustment of -17,558 for over-projections in Quota Years 2008 and 2009, as well as expired COEs from 2009. An adjustment of -12,769 had been made in the quota from Apr 2010 to Jul 2012. The adjustment was then deferred for one year from Aug 2012 to Jul 2013 and the remaining adjustment of -3,193 will end in Jan 2015.

(h) When taxis were moved from Cat A to Cat E from 6 Aug 2012, 23 COEs per month, representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013, should have been deducted from Cat A and added to Cat E. However, they had remained in the Cat A quota for Aug 2012 to Jan 2013. These COEs will be deducted from Cat A and added to Cat E at an appropriate time in the future.

Notes:

(a) The vehicle growth rate for the 3-year quota period from February 2012 to January 2015 has been set at 1.5% p.a. for February – July 2012, 1.0% p.a. for August 2012 – January 2013 and 0.5% for February 2013 – January 2015.

(b) As taxis were moved from CAT A to CAT E from 6 August 2012, CAT E receives the 0.5% vehicle growth component for the taxi population of 28,210 taxis as at 31 Dec 2012.

(c) CAT E receives 15% of the de-registrations in each category. As announced in May 2012, the contribution rate to CAT E has been reduced to 15% from February 2013.

(d) Since taxis were moved to CAT E from 6 August 2012, new tax registrations thereafter would draw from the allocation of CAT E COEs. These new registrations need to be deducted from the total number of CAT E COEs. As the net increase is only known after the end of the previous quota period, the new registrations are adjusted in the quota for the subsequent period. Between 1 January 2013 and 30 June 2013, 1,508 taxis were registered and 1,937 taxis were de-registered. During this period, taxi companies used 46 CAT A COEs that had been obtained in bidding exercises before 6 August 2012. Therefore, a net adjustment of 1,937 – 1,508 + 46 = +475 will be made to the CAT E quota.

(e) Expired COEs refer to COEs that have been successfully secured by bidders but were not utilised during their validity period (between Jan and Jun 2013).

(f) Refers to a total adjustment of -17,558 for over-projections in Quota Years 2008 and 2009, as well as expired COEs from 2009. An adjustment of -12,769 had been made in the quota from April 2010 to July 2012. The remaining adjustment of -4,789 had been deferred for 1 year from August 2012 to July 2013 and will resume from August 2013 to January 2015.

(g) When taxis were moved from CAT A to CAT E from 6 August 2012, 23 COEs per month, representing the vehicle growth component for the taxi population for August 2012 to January 2013, should have been deducted from CAT A and added to CAT E. However, these remained in the CAT A quota for August 2012 to January 2013. These COEs will be deducted from CAT A and added to CAT E at an appropriate time in the future.

Note:

(a) The vehicle growth rate for the 3-year quota period from Feb 2012 to Jan 2015 has been set at 1.5% p.a. for Feb – Jul 2012, 1.0% p.a. for Aug 2012 – Jan 2013 and 0.5% for Feb 2013 – Jan 2015.

(b) As taxis are moved from the CAT A to CAT E from 6 Aug 2012, CAT E receives the vehicle growth component for the taxi population of 28,210 taxis as at 31 Dec 2012.

(c) Net increase is spread over 6 bidding months from Feb 2013 to Jul 2013.

(d) This includes taxis that were (i) de-registered between 1 Jan 2012 and 5 Feb 2012 and not replaced in the subsequent 6-month period expiring between 1 Jul 2012 and 5 Aug 2012, by payment of the prevailing quota premium under the previous replacement arrangement, and (ii) de-registered from 6 Feb 2012 but not replaced by 5 Aug 2012. For (ii), the previous replacement arrangement is terminated on 6 Aug 2012 and the taxis, if they are to be replaced, will draw upon COEs from CAT E.

(e) CAT E receives 15% of the de-registrations in each category. As announced in May 2012, the contribution rate to CAT E will be reduced to 15% from Feb 2013.

(f) Since taxis were moved to CAT E from 6 Aug 2012, new registrations thereafter would draw upon the allocation of CAT E COEs. These new registrations need to be deducted from the total number of CAT E COEs. As the net increase is only known after the end of the previous quota period, the new registrations are adjusted in the quota of the subsequent period. Between 6 Aug 2012 and 31 Dec 2012, 1,252 taxis were registered and 1,088 taxis were deregistered. During this transitionary period, taxi companies used 468 CAT A COEs that had been obtained in bidding exercises before 6 Aug 2012. Therefore, a net adjustment of 1,088 – 1,252 + 468 = +304 will be made on the CAT E quota.

(g) Refers to COEs that have been successfully secured by bidders but were not utilised during their validity period (between Jul and Dec 2012).

(h) When taxis were moved from the CAT A to CAT E from 6 Aug 2012, 23 COEs per month, representing the vehicle growth component for the taxi population for Aug 2012 to Jan 2013, should have been deducted from CAT A and added to CAT E. However, these remained in the CAT A quota for Aug 2012 to Jan 2013. These COEs will be deducted from CAT A and added to CAT E at an appropriate time in the future.
